

Effective Monday July 2, 2018, the City of Lowell will no longer utilize Cascade Township for building, plumbing, mechanical and electrical inspection services. Beginning this date, we will utilize Professional Code Services (PCI) for those inspections. PCI will be able to address all electrical, mechanical and plumbing applications directly from their office in Dorr, located at 1515 142nd Ave. Dorr, MI 49323. All zoning and Historic District Commission applications must be done through Lowell City Hall as they are currently.

All applications for building, electrical, mechanical and plumbing permits will be available online at pcimi.com and. All phone calls for inspection services should be made with PCI at 616-877-2000 or 800-628-3335.

Michael T. Burns
City Manager
City of Lowell
