INDEPENDENT AUDITORS' REPORT

June 4, 2015

Township Board
Cascade Charter Township
Kent County, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Cascade Charter Township (the Township), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Township, as of December 31, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 8 and the information on pages 35 through 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The 2014 combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2014 combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole. We did not audit the 2013 information presented and express no opinion on it.

Wendyold Haefner LLC

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

As management of Cascade Charter Township (the Township), we offer readers of the Township's financial statements this narrative overview and analysis of the financial activities of the Township for the fiscal year ended December 31, 2014. We encourage readers to consider the information presented here in conjunction with additional information that is furnished in the financial statements and notes to the financial statements.

Financial Highlights

- The Township's net position increased through 2014 operations by \$3,498,083 (or 9.9 %).
- Total expenses of the Township's programs were \$7,132,112.
- Total revenues, including all program and general revenues, were \$10,630,195.
- At the close of the current year, the Township's governmental funds reported combined ending fund balances of \$19,140,175, an increase of \$1,990,656 from the previous year.
- At the end of the current year, the unassigned fund balance for the General Fund was \$7,233,857, or 218.5% of total General Fund expenditures and transfers out.
- Total debt of the Township decreased by \$912,000 (or 15.6%) during the current year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Cascade Charter Township's financial statements. The Township's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Township's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Township's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused compensated absences, accrued interest, etc.).

Both of the government-wide financial statements distinguish functions of the Township that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Township include general government, public safety, public works, community and economic development, culture and recreation, and other township activities. The Township has no business-type activities.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Township maintains thirteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the general fund, fire, police, improvement revolving, library, pathways, and open space funds which are considered major funds.

Data is combined into a single aggregated presentation for the other governmental funds. Individual fund data for each of the non-major governmental funds is provided in the form of *combining statements and schedules*.

The Township adopts an annual appropriated budget for its general and special revenue funds. Budgetary comparison schedules have been provided herein to demonstrate compliance with those budgets.

Proprietary funds. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Township has no proprietary funds.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resource of those funds are *not* available to support the Township's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This consists of this management discussion and analysis, major fund budgetary schedules, and schedules of funding progress for the defined benefit plan.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Township, assets exceeded liabilities and deferred inflows by \$38,777,148 at the close of the most recent fiscal year. A summary of net position is as follows:

Net Position

	<u>Governmental activities</u>	
	<u>2014</u>	<u>2013</u>
Current and other assets	\$28,920,551	\$26,267,209
Capital assets	20,365,543	20,594,409
Total assets	<u>49,286,094</u>	<u>46,861,618</u>
Long-term liabilities outstanding	4,348,938	4,994,222
Other liabilities	1,127,469	1,114,409
Total liabilities	<u>5,476,407</u>	<u>6,108,631</u>
Deferred inflows of resources-taxes	<u>5,032,539</u>	<u>5,473,922</u>
Net position:		
Net investment in capital assets	15,427,543	14,712,548
Restricted	15,071,170	12,947,249
Unrestricted	8,278,435	7,619,268
Total net position	<u>\$38,777,148</u>	<u>\$35,279,065</u>

A portion of the Township's net position (21 percent) reflects unrestricted net position which is available for future operations while the largest portion of net position is invested in capital assets (e.g., land, buildings, vehicles, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The Township uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending.

The government's net position increased by \$3,498,083 during the current fiscal year.

Changes in Net Position

	<u>Governmental activities</u>	
	<u>2014</u>	<u>2013</u>
Revenue:		
Program revenue:		
Charges for services	\$ 2,623,363	\$2,827,189
Operating grants and contributions	24,500	-
Capital grants and contributions	-	-
General revenue:		
Property taxes	5,532,258	5,442,855
State sources	1,344,065	1,308,974
Intergovernmental	21,913	-
Unrestricted investment earnings	249,616	236,741
Other	834,480	154,684
Total revenue	<u>\$10,630,195</u>	<u>9,970,443</u>

	<u>Governmental activities</u>	
	<u>2014</u>	<u>2013</u>
Expenses:		
General government	\$1,535,203	\$1,382,212
Public safety	3,477,783	3,564,659
Public works	515,703	1,000,628
Community and economic development	154,567	147,396
Culture and recreation	846,609	791,006
Other township	405,669	379,068
Interest on long-term debt	196,578	239,891
Total expenses	<u>7,132,112</u>	<u>7,504,860</u>
Change in net position	<u>3,498,083</u>	<u>2,465,583</u>
Net position - beginning of year	<u>35,279,065</u>	<u>32,813,482</u>
Net position - end of year	<u>\$38,777,148</u>	<u>\$35,279,065</u>

Governmental Activities. During the year the Township invested \$3,477,783 or 49% of governmental activities expenses in public safety. General government expenses amounted to \$1,535,203 or 22% of governmental activities while public works, community and economic development, culture and recreation, interest on long-term debt, and other made up the remaining 29% of governmental activities expenses.

Financial Analysis of the Government's Funds

As noted earlier, the Township uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Township's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Township's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the Township's governmental funds reported combined ending fund balances of \$19,140,175, an increase of \$1,990,656 in comparison with the prior year. Of the \$19,140,175, \$8,516,152 is reported in the general fund.

The general fund is the chief operating fund of the Township. At the end of the current fiscal year, unassigned fund balance of the general fund was \$7,233,857. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 219% of total general fund expenditures. The fund balance of the Township's general fund increased by \$867,207 during the current fiscal year.

The fire fund is used to account for Fire Department operations of the Township. At the end of the current fiscal year, fund balance was \$2,292,634, a decrease of \$80,720 over the prior year. As a measure of the fund's liquidity, it may be useful to compare fund balance to total fund expenditures. The decrease is primarily the result of purchasing a fire truck during the year.

The police fund is used to account for the contract with the County Sheriff Department to provide police protection to the Township. At the end of the current fiscal year, fund balance was \$1,191,159, an increase of \$694 over the prior year.

The improvement revolving fund collects connection fees for sewer and water hookups to be used for the construction of extension to the utility systems benefiting Township residents. At the end of the current fiscal year, fund balance was \$1,181,493, an increase of \$369,950 over the prior year. The increase is primarily due to hookup fees received.

The library fund is used to account for the property tax millage and expenditures related to the Township library. At the end of the current fiscal year, fund balance was \$1,970,921, an increase of \$370,436 over the prior year. The increase is primarily the result of bonds being repaid in the prior year and debt service transfers were not needed in 2014.

The pathways fund is used to account for the property tax millage dedicated to the maintenance, operations and debt service related to the Townships pathway system. At the end of the current fiscal year, fund balance was \$758,014, a decrease of \$35,285 from the prior year. The decrease is due to required debt service principal and interest along with maintenance of the pathways.

The Inspections fund collects inspection (building, mechanical, electrical, plumbing) permits from Cascade Township and other customer community residents to be used for maintaining the operations of the Inspections Department. At the end of the current fiscal year, fund balance was \$1,798,281, an increase of \$498,283 over the prior year. The increase is primarily the result of significant building projects within the Township.

The open space fund is used to account for the property tax millage dedicated to the development of Township parks. At the end of the current fiscal year, fund balance was \$470,595, a decrease of \$55,113 from the prior year. The decrease is due to required debt service principal and interest payments transferred to the Building Authority.

Capital Asset and Debt Administration

Capital assets. The Township's investment in capital assets for its governmental and business-type activities as of December 31, 2014, amounted to \$20,365,543 (net of accumulated depreciation).

The Township's capital assets (net of depreciation) are summarized as follows:

	2014	2013
Land	\$ 9,650,440	\$ 9,650,440
Land improvements	2,948,814	3,296,395
Infrastructure	588,000	616,000
Buildings and improvements	5,326,460	5,533,241
Furniture and equipment	314,466	359,350
Vehicles	1,537,363	1,138,983
Total	\$20,365,543	\$20,594,409

Additional information on the Township's capital assets can be found in the footnotes to the financial statements.

Debt. At the end of the current fiscal year, the Township had total debt outstanding as follows:

	2014	2013
Accrued employee benefits	\$ 73,938	\$ 76,222
Bonds payable	4,938,000	5,850,000
Total	\$5,011,938	\$5,926,222

Additional information on the Township's long-term debt can be found in the footnotes to the financial statements.

Budgetary Highlights

Over the course of the year, the Township revised the annual General and Special Revenue Funds operating budgets several times to comply with the Michigan Department of Treasury guidelines. The budget amendments were made to reflect changes in revenues and expenditures as they occurred during the year.

- In the General Fund, the final amended budget estimated an increase in fund balance of \$197,905, which was lower than the original anticipated increase of \$603,091. The major amendments included:
 - Increase in Liquor License revenues from \$0 to \$19,000 as we instituted our own liquor license inspection program.
 - Increase in Sewer & Water Implementation Fees of \$33,000 to reflect a higher than anticipated water and sewer connections
 - Increase in Building Inspection Interfund Reimbursements of \$30,000 to reflect higher than anticipated building permit revenues.
 - Increase in Road Overlay expenditures of \$46,000 to reflect additional work approved by the Township Board.
 - Increase in Pension Plan Benefits expenditures of \$375,435 to reflect the Township Board paying down a portion of the MERS DB plan unfunded liability.
- In the Infrastructure Revolving Fund, the final amended budget estimated an increase in fund balance of \$116,895, which was significantly higher than the original anticipated decrease of \$236,140. The major amendments included :
 - Increase in Hook-Up Fee revenues of \$350,000 to reflect significantly higher water and sewer hook-up charges in the Township.
- In the Building Department Fund, the final amended budget estimated an increase in fund balance of \$449,667, which was significantly higher than the original anticipated increase of \$82,096. The major amendments included :
 - Increase in nearly all of the revenue line items to reflect higher than anticipated revenues

Economic Factors and Next Year's Budgets and Rates

The following factors were considered in preparing the Township's budget for the 2015 fiscal year:

- For FY 2015, the Township's initial General Fund Budget anticipates a year-end fund balance increase of \$93,726. The Township continues to see an increase in tax revenue growth (3.05%) and state shared-revenue growth (5.98%). For FY15 the Township budgeted significant capital improvement expenditures including upgrades at the Rec Park (\$600,000) and needed repairs at Township Hall (\$150,000). In addition, the Township increased the contribution to the local roads program to \$350,000 from \$150,000 in FY 2014.
- In the FY 2015 Special Revenue and component funds, all funds will continue to see an increase in fund balance, with the exception of the Open Space fund and the DDA fund. The Open Space fund will see a year-end decrease in fund balance of \$56,247 as part of a planned fund balance draw-down for the payment of debt obligation. The DDA will see the fund balance decrease by \$1,547,080 as the DDA completes several capital improvement projects they have been planning and saving for the past several years.

Requests for Information

This financial report is designed to provide a general overview of Cascade Charter Township's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Benjamin Swayze, Township Manager, Cascade Charter Township, 2865 Thornhills SE, Grand Rapids, MI 49546-7140, (616) 949-1500, or by email at bswayze@cascadetwp.com.

CASCADE CHARTER TOWNSHIP

RECONCILIATION OF FUND BALANCES ON THE BALANCE SHEET FOR GOVERNMENTAL FUNDS TO NET POSITION OF GOVERNMENTAL ACTIVITIES ON THE STATEMENT OF NET POSITION

DECEMBER 31, 2014

Fund balances - total governmental funds	\$ 19,140,175
---	----------------------

Amounts reported for *governmental activities* in the statement of net position are different because

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds.

Add - land	9,650,440
Add - capital assets (net of accumulated depreciation)	10,715,103

Certain assets are not due and receivable in the current period and therefore are offset with deferred revenue or not included in the funds.

Add - special assessments deferred receivable	3,883,537
Add - accrued interest receivable	53,895
Add - net pension asset	375,435

Certain liabilities are not due and payable in the current period and therefore are not reported in the funds.

Deduct - compensated absences payable	(73,938)
Deduct - bonds and notes payable	(4,938,000)
Deduct - accrued interest on bonds and notes payable	<u>(29,499)</u>

Net position of governmental activities	<u>\$ 38,777,148</u>
--	-----------------------------

The accompanying notes are an integral part of these financial statements.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Cascade Charter Township (the "Township") conform to generally accepted accounting principles as applicable to governments. The following is a summary of the significant policies.

Reporting Entity

These financial statements present the Township and its component units, entities for which the Township is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the Township's operations, so data from these units are combined with data of the primary government. Discretely presented component units are reported in separate columns in the financial statements to emphasize they are legally separate from the Township.

Blended Component Unit

The Building Authority (the "Authority") serves all the citizens of the Township and is governed by a Board appointed by the Township's Board. The primary purpose of the Authority is to acquire and construct Township public buildings. The Authority issues bonds that are approved by the Township Board, and the legal liability for the Authority's debt remains with the Township. The Authority then leases the assets to the Township to finance the repayment of the bonds. The Authority is reported as a debt service fund.

Discretely Presented Component Unit

The Downtown Development Authority (the "DDA") was created to correct and prevent deterioration in the downtown area and promote economic growth within downtown. The DDA governing body consists of individuals that are appointed by the Township's Board. The Township's Board approves the DDA's budget and has the ability to significantly influence operations of the DDA. Financial statements are not separately issued for the DDA.

This component unit provides services to the businesses located within the district. They are reported in a separate column to emphasize they are legally separate from the Township.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues are reported in total. The Township had no business-type activities. The *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, except for agency funds which do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for state shared revenue and reimbursement-based grants which use a one year collection period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Township.

The Township reports the following major governmental funds:

The *General Fund* is the general operating fund of the Township. It is used to account for all financial resources, except those required to be accounted for in another fund.

The *Fire Special Revenue Fund* is used to account for a special tax millage levied by the Township to maintain the operations and debt service of the Township Fire Department.

The *Police Special Revenue Fund* is used to account for a special tax millage levied by the Township to maintain law enforcement activities in the Township.

The *Improvement Revolving Special Revenue Fund* is used to account for a special assessment and fees used to construct and improve the sewer sanitation and water supply systems in the Township.

The *Library Special Revenue Fund* is used to account for a special tax millage levied by the Township to maintain operations and debt service of the Township library.

The *Pathways Special Revenue Fund* is used to account for a special tax millage levied by the Township to maintain operations and debt service of the Township pedestrian pathways system.

The *Inspections Special Revenue Fund* is used to account for permit fees collected to maintain the operations of the Township inspections department.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

The *Open Space Special Revenue Fund* is used to account for a special tax millage levied by the Township purchase land needed for township park development.

Additionally, the Township reports the following fund types:

The *Special Revenue Funds* are used to account for the proceeds of specific revenue sources (other than permanent trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

The *Capital Projects Fund* is used for the accumulation and disbursement of resources for the construction of various capital items.

The *Debt Service Fund* is used to account for the accumulation of resources for, and payment of, long-term debt principal, interest, and related costs.

The *Permanent Fund* accounts for fees collected to be used for cemetery improvements.

The *Agency Funds* are used to account for the collection and disbursement of funds that are collected on behalf of the Township and outside governments or other parties.

Budgets and Budgetary Accounting

Comparisons to budget are presented for the general and special revenue funds. General and special revenue funds adopt a legal budget with remaining funds maintaining budgets as a management control device. The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Township Manager submits to the Township Board a proposed operating budget for the fiscal year commencing the following January 1.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to January 1, the budget is legally enacted through passage of a resolution.
4. Budgets for the general and special revenue funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Annual budgets lapse at fiscal year-end.
5. Supplemental appropriations, when required to provide for appropriate expenditures are matched by additional anticipated revenues or an appropriation of available fund balance and must be approved by the Township Board. All appropriations lapse at year-end.

The appropriated budget is prepared by fund, function and department. The legal level of budgetary control is the department level. Supplemental appropriations were made during the year.

Cash and Pooled Investments

The Township's cash and pooled investments are considered to be cash equivalents because the balances are pooled and readily available similar to a demand deposit account.

CASCADE CHARTER TOWNSHIP
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2014

Investments

Investments are stated at fair value at the balance sheet date.

State statutes authorize the Township to invest in:

- a. Bond, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- d. Bankers' acceptances of United States banks.
- e. Obligations of the State of Michigan and its political subdivisions that, at the time of purchase that are rated as investment grade by at least one standard rating service.
- f. Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- g. External investment pools as authorized by Public Act 20 as amended.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Prepaid Items

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Capital Assets

Capital assets, which include land, land improvements, infrastructure, buildings and improvements, vehicles, and furniture and equipment, are reported in the in the government-wide financial statements.

Capital assets are defined by the government as assets with an initial, individual cost of more than \$2,500 and an estimated useful life in excess of one year. Such assets are valued at cost where historical records are available and at estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Depreciation on capital assets is computed using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Land improvements	15-30
Infrastructure	50
Buildings and improvements	25-40
Vehicles	5-20
Furniture and equipment	5-15

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The government has no items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds and governmental activities report unearned revenues from property taxes levied for the following year. Additionally the governmental funds report unavailable revenue related to special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Long-Term Obligations

In the government-wide financial statements, the long-term debt and other long-term obligations are reported as liabilities in the statement of net position. For new bond issuances after the implementation of GASB Statement No. 34, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

Compensated Absences

Under contracts negotiated with employee groups, individual employees have a vested right to receive payments for unused vacation and sick leave under formulas and conditions specified in the contracts. Accumulated compensated absences of governmental funds are recorded on the statement of net position and not on the governmental fund balance sheets because the balance is not expected to be liquidated with expendable available financial resources.

Net Position and Fund Balance Reporting

Governmental funds report fund balance in the following five categories:

1. Non-spendable - the related asset's form does not allow expenditure of the balance. The assets are either (a) not in a spendable form or (b) legally or contractually required to be maintained intact. Non-spendable fund balance would be equal to inventory, prepaid items, non-current financial assets, and the non-spendable portion of endowments.
2. Restricted - the related assets can only be spent for the specific purposes stipulated by constitution, external resource providers, or as identified in enabling legislation.
3. Committed - the related assets can only be spent for a specific purpose identified by formal resolution of the governing board.
4. Assigned - the related assets can only be spent for a specific purpose identified by management as authorized by the governing board.
5. Unassigned - is the residual classification and includes all spendable amounts not contained in the other classifications.

Net Position and Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position/fund balance and unrestricted – net position/fund balance, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to use restricted resources first, then unrestricted resource as they are needed. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Property Taxes

Township property taxes attach as an enforceable lien on property as of December 1 of each year and are due without penalty on or before February 14. Tax bills include the Township's own property taxes and taxes billed on behalf of other taxing units. Real property taxes not collected as of March 1 are turned over to the county for collection, which advances the Township 100% of the delinquent real property taxes. Collection of delinquent personal property taxes remains the responsibility of the Township Treasurer. The December 1 levy is offset with unearned revenue at the end of the year because it is intended to fund expenditures of the following year.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

Interfund Transactions

During the course of normal operations, the Township has numerous transactions between funds. Transactions that constitute reimbursement to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed. Remaining transactions are generally reflected as transfers.

Risk Management

The Township is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. During the year ended December 31, 2014, the Township carried commercial insurance to cover risks of losses. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

2. STATUTORY COMPLIANCE

Michigan law provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the Township's actual expenditures and budgeted expenditures for the budgeted funds have been shown on a departmental basis. The approved budgets of the Township for these budgeted funds were adopted at the department level.

During the year ended December 31, 2014, the Township incurred expenditures in excess of the amount appropriated as follows:

	<u>Final Budget</u>	<u>Actual</u>	<u>Unfavorable Variance</u>
General Fund			
Other	\$776,263	\$781,104	\$4,841
Police Special Revenue Fund			
Public safety	573,107	599,635	26,528

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

3. CASH AND INVESTMENTS

The captions on the financial statements relating to cash and pooled investments and investments are as follows:

	<u>Primary Government</u>	<u>Component Unit</u>	<u>Fiduciary Funds</u>	<u>Total</u>
Cash and pooled investments	\$18,734,811	\$1,946,583	\$5,397,304	\$26,078,698

The cash and investments making up the above balances are as follows:

Deposits	\$21,566,301
Petty cash	401
Investments	4,511,996
Total	\$26,078,698

The deposits are in financial institutions located in Michigan in varying amounts. State policy limits the Treasurer's investing options to financial institutions located in Michigan. All accounts except as noted are in the name of the Township and a specific fund or common account. They are recorded in Township records at fair value. Interest is recorded when earned.

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be returned. State law does not require, and the Township does not have, a policy for deposit custodial credit risk. As of year-end, \$16,697,434 of the Township's bank balance of \$23,302,358 was exposed to custodial credit risk because the balance was uninsured and uncollateralized.

Investments

The Township chooses to disclose its investments by specifically identifying each. As of year-end, the Township had the following investments:

	<u>Maturity</u>	<u>Fair Value</u>	<u>Rating</u>	<u>Source</u>
FHLB Note	6/26/19	\$ 499,815	AAA	Moody
Investment pool accounts				
Kent County Investment Pool	N/A	4,012,181	Unrated	
Total		\$4,511,996		

Investment and deposit risk

Interest Rate Risk. State law and Township policy limit the allowable investments and the maturities of some of the allowable investments as identified in Note 1, the summary of significant accounting policies. The Township's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The maturity date for each investment is identified above for investments held at year-end. There is no stated maturity date for the Township's investment in the Kent County Public Funds Investment Pool identified above.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

At December 31, 2014 the balance of the Kent County Public Funds Investment Pool consisted of the following:

<u>Investment</u>	<u>Percentage of pool total</u>	<u>Maturity in years</u>
Government agency securities	24%	0-3
Certificates of deposits	55%	0-4
Money market accounts	21%	Not applicable

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in Note 1, the summary of significant accounting policies. The investment policy does not have specific limits in excess of state law on investment credit risk. The rating for each investment is identified above for investments held at year-end.

Custodial Credit Risk - Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require, and the Township does not have, a policy for investment custodial credit risk. Of the above investments in pools and mutual funds, the Township's custodial credit risk exposure cannot be determined because the mutual funds and the investment pools do not consist of specifically identifiable securities. The FHLB note is uninsured and unregistered and held by the government's brokerage firm which is also the counter party for this security.

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk as identified in Note 1, the summary of significant accounting policies. The Township's investment policy does not have specific limits in excess of state law on concentration of credit risk. All investments held at year-end are reported above.

Recreation and cultural	544,390
Total depreciation expense - governmental activities	\$792,885

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

5. INTERFUND TRANSACTIONS

Transfers in and out for the year are as follows:

Transfers out	Transfers in			
	<u>General Fund</u>	<u>Fire Fund</u>	<u>Non-Major Funds</u>	<u>Total</u>
General fund	\$ -	\$400,000	\$ 42,250	\$442,250
Improvement revolving	1,129	-	-	1,129
Library	16,336	-	-	16,336
Inspections	102,920	-	-	102,920
Open space	-	-	347,105	347,105
	\$120,385	\$400,000	\$389,355	\$909,740

Transfers are used to (1) move unrestricted revenues collected in the general fund to finance capital and other various programs accounted for in other funds in accordance with budgetary authorizations and (2) move allocated cost of general operations to applicable funds.

Interfund receivables and payables of individual funds at December 31, 2014 were as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>		
	<u>Improvement Revolving</u>	<u>Inspections</u>	<u>Total</u>
General fund	\$70,258	\$75	\$70,333

Interfund balances reflect loans made from funds with cash and pooled investments to those funds requiring temporary cash flow

6. LONG-TERM DEBT

The following is a summary of the debt transactions of the Township for the year ended December 31, 2014:

	Balance January 1, 2014	Additions	Deletions	Balance December 31, 2014	Due Within One Year

7. PENSION PLANS

Defined Benefit Pension Plan

Defined Benefit Plan

The Township participates in the Municipal Employees' Retirement System of Michigan (MERS), an agent multi-employer defined benefit pension plan providing retirement, death and disability benefits. The System is administered by the MERS retirement board. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. A publicly available financial report that includes financial statements and required supplementary information for MERS may be obtained by writing to the Municipal Employees Retirement System of Michigan, 1134 Municipal Way, Lansing, Michigan 48917.

The Township is required to contribute at an actuarially determined rate of 11.17% of annual covered payroll. Employees are required to contribute 5.04% of annual covered payroll to the Plan. The contribution requirements of the Township are established and may be amended by the MERS Retirement Board. The contribution requirements of employees are established and may be amended by employment agreements.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

For the year ended December 31, 2014, the Township's annual pension cost of \$210,338 for MERS was equal to the Township's required and actual contributions. In addition to the required contribution, the Township elected to make an additional contribution of \$375,435 which is reflected on the government-wide statement of net position as a net pension asset. The required contribution was determined as part of the December 31, 2012 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included: (a) a rate of return on the investment of present and future assets of eight (8.0) percent; and (b) projected salary increases of four and one-half (4.5) percent per year compounded annually based on inflation, plus from zero (0.0) to thirteen (13.0) percent based on an age-related scale to reflect merit, longevity and promotional salary increases. The actuarial value of MERS assets was determined on the basis of a valuation method that assumes the fund earns the expected rate of return and includes an adjustment to reflect fair value. The difference in investment income between expected return and market return is recognized over a 10-year period at the rate of ten (10.0) percent per year. The Township's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2013, the most recent valuation available, was 25 years.

The required schedule of funding progress immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities of benefits.

Three-Year Trend Information

<u>Fiscal Year</u> <u>Ending</u>	<u>Annual Pension</u> <u>Cost (APC)</u>	<u>Percentage of APC</u> <u>Contributed</u>	<u>Net Pension</u> <u>Obligation</u>

12/31/2013	\$6,378,879	\$8,064,843	\$1,685,964	79%	\$2,130,553	79%

Defined Contribution Pension Plans

The Township maintains a defined contribution plan administered by an insurance company. The Township contributes 10 percent of each eligible employee's salary to the plan. Employees are also able to make additional voluntary contributions. Plan provision and contribution requirements are established and may be amended by the Board. The Township's contribution for 2014 was \$9,005.

8. LEASE AGREEMENT

The township renewed an agreement in 2005, which provides for the leasing of the Cascade Dam to a private company for the purpose of generating and selling hydroelectric power. The lease term is fourteen years (through 2018) with an annual base rental of \$74,276 plus an annual maintenance reserve fee of \$5,000 which is collected by the Township General Fund; \$40,000 plus the \$5,000 maintenance reserve fee is set aside each year in the Cascade Dam Major Repair Fund. At December 31, 2014 the Cascade Dam Major Repair Fund has accumulated \$478,167.

CASCADE CHARTER TOWNSHIP

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2014

9. CONTINGENT LIABILITIES

In the normal course of its operations, the Township has become a party in various legal actions, including property tax appeals. Management of the Township is of the opinion that the outcome of such actions will not have a material effect on the financial position of the Township.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by the grantor agencies, principally the federal and state government. Any disallowed claims, including amounts already collected, may constitute a liability to the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the Township expects such amounts, if any, to be immaterial.
