Re: Thornapple River Special Assessment District – 2022 Weed Management Program

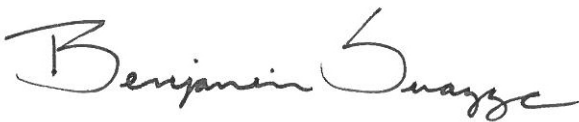

Dear Thornapple River SAD Member,

On behalf of the Township, I would like to thank you for your patience as the first year of the Thornapple River aquatic weed management program has been developed. At the recommendation of the Thornapple River SAD Ad-Hoc Committee, the Township solicited bids for a multi-year aquatic weed management program. Through that process, PLM Lake and Land Management Corp was selected to develop and implement a three-year program. Enclosed you will find the schedule for the first year of that program, as well as important details on the treatments that will be done this summer and fall.

The Township has also developed a website for up-to-date information on the aquatic weed management program, as well as other information regarding the special assessment district, which you can review at [https://www.cascadetwp.com/community/thornapple-river-special-assessment-district-\(sad\)](https://www.cascadetwp.com/community/thornapple-river-special-assessment-district-(sad)). On the webpage, there is also a link to sign up for the Thornapple River SAD eNewsletter which we would encourage you sign up for to receive the latest information on aquatic weed management activities on the river.

Please feel free to share this information with your friends and neighbors that may have an interest in the activities taking place on the river but are not in the special assessment district. If you have any questions about the program, you can reach out to me by email at bswayze@cascadetwp.com or by phone at 616-949-1500.

Sincerely,

Benjamin Swayze
Township Manager
