Re: Thornapple River Special Assessment District – 2024 Weed Management Program

Dear Thornapple River SAD Member,

On behalf of the Township, I would like to thank you for your partnership in year 3 of the Thornapple River Aquatic Weed Management Program. Enclosed, you will find the schedule for the program's third year as well as important details on the treatments that will be done this summer and fall.

At the recommendation of the Thornapple River SAD Ad Hoc Committee, the Township solicited bids for a multi-year aquatic weed management program in 2022. Through that process, PLM Lake and Land Management Corp was selected to develop and implement a three-year program.

The Township has also developed a webpage for up-to-date information on the aquatic weed management program, water test results, and other details of the special assessment district. It can be found on the Township website at cascadetwp.com/ThornappleRiverSAD.

Please feel free to share this information with your friends and neighbors who may have an interest in the activities taking place on the river but are not in the special assessment district. If you have any questions about the aquatic weed management program, you can reach the Township by phone at 616.949.1500.

Sincerely,

Jade Smith
Township Manager
