The Project occupies approximately 42 acres of land that presently contains an office building, manufacturing facility, wetlands, and vacant property. The Project is proposed to be developed into an office complex. The Planned Unit Development technique has been chosen by the Developer to provide more control over the Project's aesthetics and appearance. This development technique provides the Developer with the ability to develop the Project in a manner to meet market expectations and develop the project in a unified manner.

The regulations contained herein are established to define the procedures necessary to insure high quality development in the Project. Additionally, they are designed to achieve integration of this development with adjacent land uses.

Section V. Approval Limitations. As amended by Ord 6 of 2003;5/28/03

- A. The provisions of this Ordinance are not intended as a substitute for the Cascade Charter Township Zoning Ordinance and the General Development Plan, nor do they in any way relieve the Developer from obtaining all approvals and permits required by the township, except as otherwise expressly provided herein. In the event that a development issue or site plan element is not addressed by this Ordinance, the specifications and requirements of the Cascade Charter Township Zoning Ordinance shall be enforced.
- B. Except as otherwise provided herein, the Developer and his assigns must meet all applicable provisions and regulations of Cascade Charter Township, as well as federal and state law, and must obtain all necessary approvals from state and county governmental agencies that are required for operation or use.
- C. This PUD approval is expressly contingent upon all conditions of approval herein remaining fully effective and valid. If any condition imposed herein is determined to be illegal or contrary to law as a result of a successful legal challenge by the Developer or its assigns, or any other party, the Township reserves the right to review the entire Project under the PUD provisions of the Cascade Charter Township Zoning Ordinance, and further, to withdraw its approval of this PUD if it finds that, absent the effect of any condition imposed herein, the PUD no longer meets the standards for PUD approval contained in the Zoning Ordinance.

- D. All conditions contained herein shall be binding upon the Developer, as well as its successors, tenants and assigns. The conditions may be modified or amended only pursuant to a formal amendment of the PUD approval and ordinance amendment.
- E. This approval document shall be recorded with the Kent County Register of Deeds by the Developer prior to construction occurring on site and shall run with and bind the lands involved. Copies of this recorded document shall be supplied by the Developer to the Cascade Charter Township Clerk.
- F. Failure to comply with the site plan or any condition of approval herein shall be deemed a violation of the Cascade Charter Township Zoning Ordinance.
- G. The developer shall have approved and recorded the Declaration of Building and Use restrictions for the entire PUD as submitted to the Township Board. These restrictions shall be for the purpose of ensuring the use of the parcels for the purposes as stated in the approved PUD and for the purpose of preserving the attractiveness and future maintenance of the PUD. The Planning Department will review the proposed land division under the criteria of the Land Division Act and the Cascade Charter Township Zoning Ordinance. In no case shall any lot be smaller than 2 Acres in size.

Section XIII. Utilities .

A. Public Water and Sanitary Sewer - All buildings within the Project shall be served by public sanitary sewer and water at the developer's expense. No building permits will be issued for any construction within the Project until final approval of the public utility system is approved by the City of Grand Rapids and Cascade Township. This does not preclude the applicant from starting on Phase 1. However, no Occupancy permit will be granted for Phase 1 until the utilities are approved.

B. Stormwater Drainage - All proposed stormwater drainage facilities shall be reviewed and approved by the Township Engineer and the Kent County Drain Commissioner's office prior to the development of the Project. Furthermore, the total height of individual light poles shall be limited to a maximum of 20 feet high. The use of wall pack and/or unshielded lights is discouraged unless in areas not viewed by the public or passerby.

Section XV. Soil Erosion Control Requirements.

Prior to each phase of construction, the Developer shall submit a soil erosion control plan showing all temporary and permanent soil erosion control measures to be taken before, during, and after construction on the Project. This plan shall be reviewed and approved by the Township Engineer prior to commencing any building on the site.

Section XVI. Performance Guarantee.

To insure compliance with this Ordinance and any conditions herein, Cascade Township may require reasonable performance guarantees, as authorized under the Township Rural Zoning Enabling Act to insure completion of improvements such as, but not limited to, landscaping, drainage, lighting, roads, and utilities. The Township Board, Engineer, or Planning Department may require such guarantees at any time they deem necessary to insure completion of the improvements.

Section XVII. Reimbursement of Review Fees.

The Developer shall re-imburse the Township for all fees associated with the review of the Project. These fees may include, but not be limited to, legal, engineering, publishing, and planning review fees.

Section XVIII. Consistency With Planned Unit Development (PUD) Standards.

The rezoning to Planned Unit Development will result in a recognizable benefit to the ultimate users of the Project and to the community. The conversion of a manufacturing building to a office complex is viewed as a more compatible use to adjacent residential and recreational land uses.

In relation to the underlying zoning (R1, Residential and PUD, Planned Unit Development) the Township finds the Project will not result in a material increase in the need for public services. Utility extensions and construction will be the responsibility of the Developer and will not place a material burden upon the subject property or the surrounding properties. The Project is not anticipated to cause undo impact to the stormwater drainage of the surrounding area. All stormwater and soil erosion control plans have been approved by the Township Engineer and the appropriate County and State agencies. All stormwater created by this development will be maintained on site.

The Project has been determined by the Township to be compatible with the General Development Plan of the Township and with the spirit and intent of the Planned Unit Development Chapter of the Zoning Ordinance. The Project is also consistent with the standards recommended in the Cascade Road Spaulding Avenue Corridor Study.

The Township finds the Project will not result in an unreasonable negative economic impact upon surrounding properties.

The Township finds the Project to have more wetlands, green areas, and usable open space than would typically be required by the Township Zoning Ordinance.

Finally, the Township recognizes the Project will be under single ownership or control. The Township recognizes that the Developer or its assigns will retain ownership and control of the project until some of the buildings may be sold to other parties.

Section XIX. Effective Date.

This Ordinance shall become effective upon publication of the ordinance, or a summary thereof, in The Grand Rapids Press, a newspaper of general circulation within Cascade

Charter Township. All prior Planned Unit Development ordinances that were previously approved for this property shall become null and void.
